Help Stowe Nordic achieve its mission - We have several major projects currently under way:

- Professional coaching for our youth/BKL age children (5-14yrs)
- Interactive nordic ski map that highlights all the nordic skiing options in the Stowe area and their connection to the town's restaurants, hotels and shops
- Grooming more ski trails on town owned land that will be directly accessible from town center and local business locations
- Expanding group ski & social events including annual trips to destinations like Quebec City and the Maine Huts trail system

Our club is funded primarily through membership and event income such as hosting major races. But to undertake more and bigger projects we need your support not only through club membership but also with additional financial contributions. **Thank you for your membership, and please consider making an extra contribution to support club activities that are a great benefit to all skiers plus the local community.**
